

Child's Play Menus

At Child's Play, parents/carers keep us informed of any dietary and food allergy requirements before a pupil attends this provision.

We ask that if there are any changes to a pupil's dietary needs that Child's Play are informed directly so that they are able to cater for those with specific allergies and dietary diversity.

As part of our commitment to safeguarding pupils, complying with Natasha's Law and British Food Standard Agency we keep labels from the food that we serve to the pupils.

This menu is to inform you of the allergens that are in the food that we serve.

Breakfast

Each day there is a selection of breakfast foods available for pupils to select from.

After School Snack

After School a selection of fruit and a snack option is available. There is a weekly menu where we will provide the options for the week. Unfortunately, due to national supply issues, sometimes our menu has to change at short notice. This menu is available online and changes will only be made on Monday should the food order not be fulfilled.
